-

Cellulitis: Questions

Questions 1- 8

For each question, **1-8**, decide which text (**A**, **B**, **C** or **D**) the information comes from. Write the letter **A**, **B**, **C** or **D** in the space provided. You may use any letter more than once.

In which text can you find information about

- | | | |
|----------|---|-------|
| 1 | treatment for cellulitis caused by less common bacteria? | _____ |
| 2 | a reason for drawing around the area affected by cellulitis? | _____ |
| 3 | a system for determining where and how best to treat patients with cellulitis? | _____ |
| 4 | symptoms that may be experienced before the infection is visible? | _____ |
| 5 | equipment for ensuring that patients' legs are more comfortable in bed? | _____ |
| 6 | alternative medication for cellulitis patients who cannot tolerate one type of antibiotics? | _____ |
| 7 | how to deal with the infection site after the swelling has begun to reduce? | _____ |
| 8 | who should be consulted regarding pharmacotherapy for cellulitis? | _____ |

Questions 9-14

Answer each of the questions, **9-14**, with a word or short phrase from one of the texts. Each answer may include words, numbers or both. You should **not** write full sentences.

- | | | |
|-----------|--|-------|
| 9 | Which antibiotic formulation is not suitable for treatment of cellulitis? | _____ |
| 10 | Which pre-existing weight-related condition would prompt a Class 2 categorisation? | _____ |

- 11 What single dose of IV benzylpenicillin should be administered to a Class 4 patient?
- _____
- 12 What may be impaired if anti-inflammatories are given to patients who take ACE inhibitors?
- _____
- 13 What is the single dose of oral flucloxacillin recommended for the least serious category of cellulitis?
- _____
- 14 What is the maximum single dose of IV clindamycin recommended for a patient with Class 4 cellulitis?
- _____

Questions 15-20

Complete each of the sentences, **15-20**, with a word or short phrase from one of the texts. Each answer may include words, numbers or both.

- 15 It may be necessary to carry out _____ of blisters caused by cellulitis.
- 16 When prescribing anti-inflammatories, _____ may be used as an alternative to ibuprofen.
- 17 A patient may have been exposed to infection by swimming in surface water or using _____.
- 18 Conditions such as _____ or even metastatic cancer may be mistaken for cellulitis.
- 19 Patients with exacerbating cellulitis, a compromised immune system, and those with _____ should be hospitalised.
- 20 Patients suffering from _____ can experience repeat episodes of cellulitis.

END OF PART A
THIS QUESTION PAPER WILL BE COLLECTED
